HEALTH AND SAFETY—FLOOR PLAN

The target mats are 2.0m x 1.5m and are stuck down using masking tape.

The launch pads are A4 size (297mm x 210mm) and stuck down as above.

The three fly zones are marked out using rubber pads.

The older the children, the larger the necessary safety zone.

The Educator and children (+ staff) require free safe movement around the outside of the danger zone.
